

Facebook 'Places'

When you are on Facebook people can now see where you are, because of 'Places'.

Other people can change your location to show you as being somewhere else without your authority.

YOU CAN STOP ALL THIS BY DOING THE FOLLOWING:-

- Log into Facebook
- Select 'Account' (top right corner of screen)
- Select 'Privacy settings'
- Click on 'Custom' (on right hand side of screen)
- Click on 'Customise settings'
- Click on 'Things I share' (Top left hand side)
- Choose 'Places I check into'
- Select 'Custom privacy'
- Choose 'Only me'
- Click on 'Save setting'

Another tip

On Facebook and MSN download the CEOP 'App' for quick reporting of concerns or abuse.
