Learning Without Limits

MMU/kan

1 February 2021

Dear Parent/Carer

I would like to begin by thanking you for your support and effort in ensuring that your child engages with remote learning. As a school, we are fully aware of the challenges that this method of working presents for both students and parents. It is a new way of working for teachers as well, and has required some radical changes in order to support our students. Remote learning calls for a great degree of flexibility, resilience and collaboration in the relationship between home and school.

Everyone's situation is different, and we are aware that some students are more confident working independently from home than others. Despite this, I have been impressed by the continued effort of all our students in adapting to a new online method of learning.

Attached along with this letter is a remote learning guide. The purpose of this is to assist parents and carers and provide advice on how to support your child with learning at home. The guidance in this document can help us all make the best of new and sometimes unfamiliar remote learning environments and can help with some of the more practical aspects of learning from home.

I want to remind you that during this time, you are not alone and whilst this time may seem challenging, confusing and at times rather daunting for both parents and students, it is vitally important that we continue to strive for excellence for our young people. We truly believe in the transformative power of education and our school vision of "Learning Without Limits".

Thank you for your continued support.

Yours sincerely

Mr M Molokwu
Assistant Principal
