from 7:30am for students to  
study

The LRC is also open every  
afternoon from 3pm - 4:15pm

# Mock Exams

Learning Without Limits

## Deliberate Practice

- Motivating students to start revision early
- Practicing effective revision strategies
- Improving knowledge
- Practicing under exam conditions
- Identifying topics that need attention

# Mock Results Day

Learning Without Limits

Mock results day 22/11/23

Each students had their own envelope with their subjects and grades, laid out exactly as their GCSEs would be.

The experience was designed to give students a similar sense of feeling of what the actual day would be like in August but also remind them of what they and all of us were working for every day.

# Accelerate Raffle

**ACCELERATE @  
ADEYFIELD RAFFLE**

When you attend a revision booster, collect a raffle, write your name on the back of the raffle and hand to Mr Hoque.

A number of prizes will be up for grabs. A raffle will be picked every week in the build up to exams.

**YOU NEED TO BE IN IT TO WIN IT!**

This motivation system was used to reward individual students. Students earned a raffle from their subject teachers if they showed the following:

- Attendance for interventions
- Outstanding work in lessons
- Excellent homework
- Any other reason by their subject teacher

# Extra Curricular

Learning Without Limits

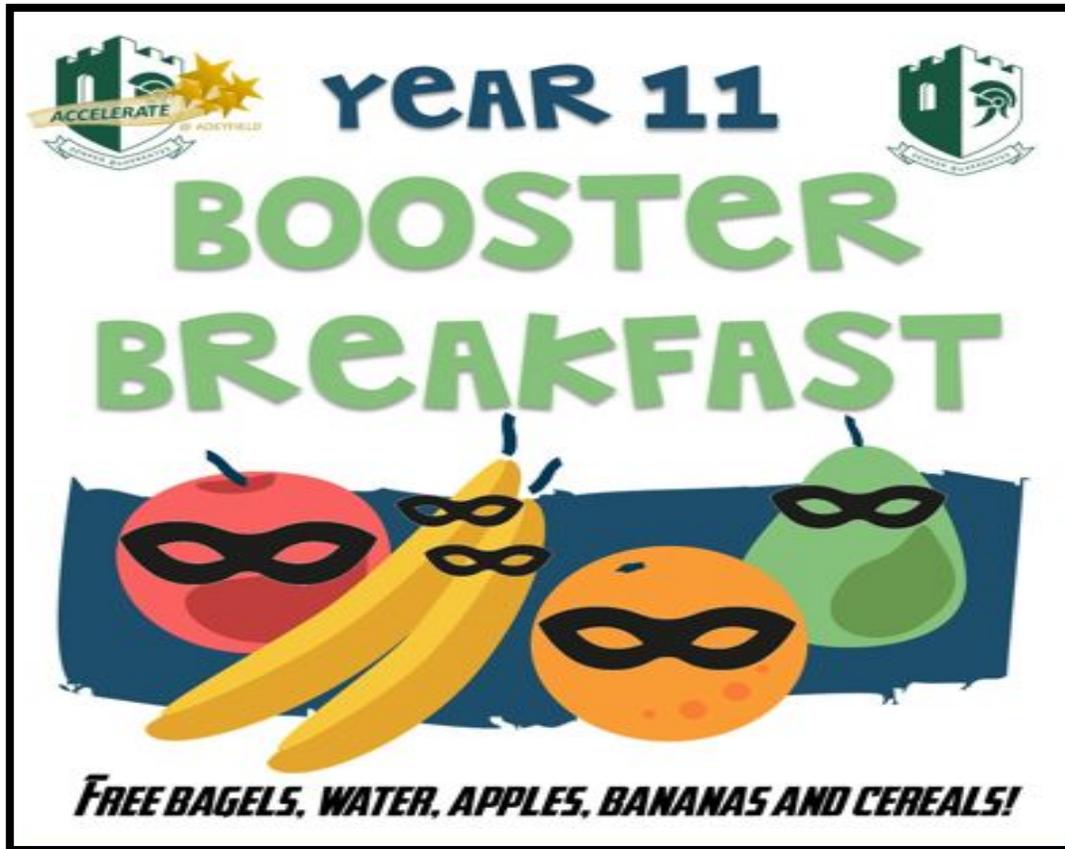

Students who participate in extra-curricular activities have a marked improvement in their grades. This can be attributed to skills they learn such as better time management to accommodate their hobbies and class activities, better organisational skills and a boost in their self-esteem.

# Booster Breakfast

In light of the national living crisis and to ensure that all students did not go hungry in the morning, students were provided with a morning breakfast in the school canteen which comprised healthy snacks, fruits, drinks and a tasty bagel.

# Take Note Board

Each week the staff and students at The Adeyfield Academy wished the Year 11 students their best for their GCSE examinations on the Take Note board. The Year 11 students can be seen on a daily basis reading some of the lovely good luck messages from the school community each morning, with one Year 11 student saying *'everyone is so nice, I love reading this every morning'*.

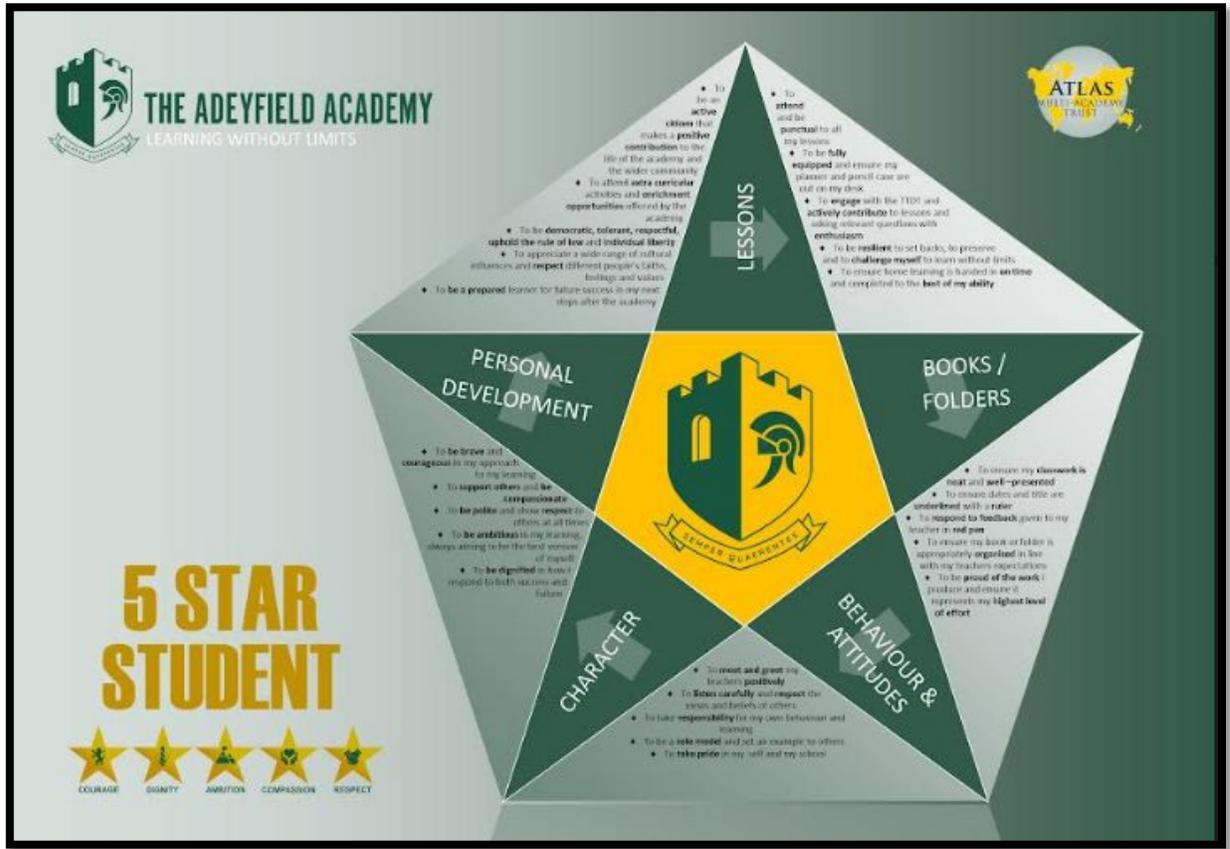

# Accelerate Pep Talks

Learning Without Limits

To inspire and motivate students before each exam, the HOFs for every subject have been delivered Accelerate Pep Talks (APTs) to ensure students are in the right mind-set as they walk up to their examinations.

The screenshot shows the Pearson Qualifications website. At the top right, there is a 'COVID-19 update' button and a language selector set to 'UK'. The main navigation bar includes 'SUBJECTS | QUALIFICATIONS | SUPPORT | ABOUT US | CONTACT US' and a search bar. Below this is a secondary navigation bar with 'Support topics', 'Services', 'Key dates', 'Resources', and 'Overview'. The breadcrumb trail reads 'Home > Support > Support topics > Past papers'. The page title is 'Exams Past papers'. The main text states: 'Our easy-to-use past paper search gives you instant access to a large library of past exam papers and mark schemes. They're available free to teachers and students, although **only teachers can access the most recent papers sat within the past 12 months.**' Below this are three dropdown menus: 'What past papers are available when, and to whom', 'Labelling of October/November 2020 past papers', and 'Looking for modified past papers?'. On the right side, there is a 'Useful links' section with four links: 'Grade boundaries', 'Grade statistics', 'Information for students', and 'Pearson copyright policy'.

## Cells

All living organisms are made up of cells. Cells are the basic unit of living organisms. They provide structure and carry out certain functions. There are two different types of cell:

Prokaryotic cells

- Prokaryotic cells are 0.1 - 5.0 micrometres in size.
- A prokaryote is an organism made up of prokaryotic cells.
- Bacteria are prokaryotes.

Scroll down to continue ↓

Eukaryotic cells are 10 - 100 micrometres in size.

Which of the following is true of eukaryotic cells?

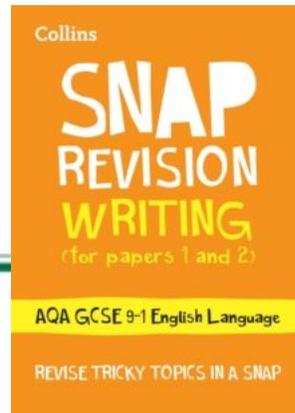

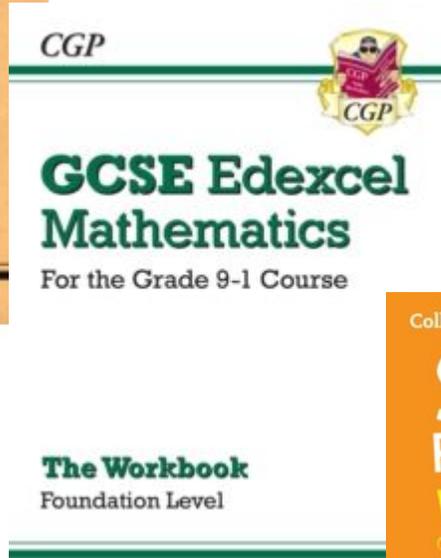

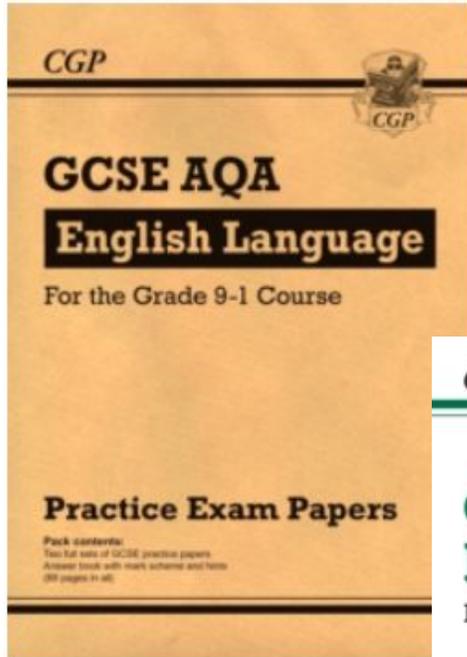

Found in fungi	Found in bacteria
Found in protists	Found in viruses
0.1 - 5.0 micrometers in size	10 - 100 micrometers in size

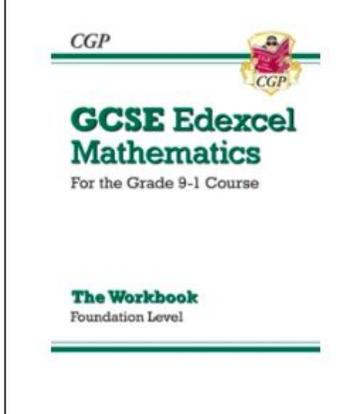

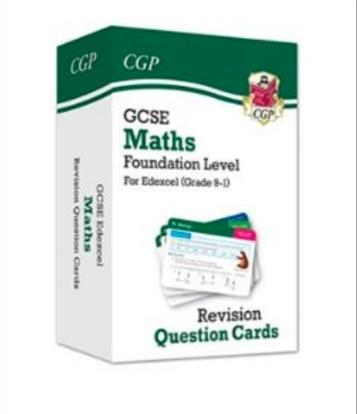

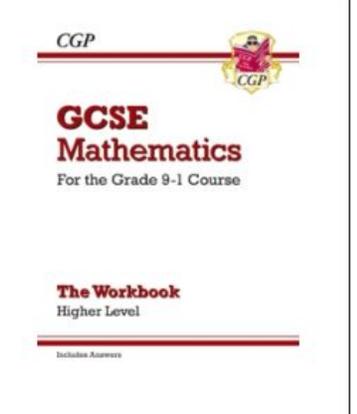

The answer is correct

1 / 3

## Prokaryotic Cells
